

Deborah L. Dart  
Financial Administrator

In working with financial control systems, Debbie's mantra is "avoid unwanted headlines". Her inquisitive nature and knack for finding solutions improves organizational stewardship and sustainability as she manages and develops accounting operations. Debbie recently established a local accounting network to exchange ideas, discuss issues, and problem solve for nonprofits. The forum offers a discussion venue on topics from audits and federal grant requirements to special events accounting. As controller for United Way of Southern Chester County (UWSCC), Debbie created innovative tracking solutions and cash flow forecasting to allow higher payouts to partner agencies and significantly increase efficient use of donors' contributions. She designed a rigorous internal audit process to minimize risk of error and fraud and established processes to reduce costs of the annual independent audit. Under her guidance, UWSCC implemented in-house payroll and tax filing to reduce administrative costs. She also provided valuable accounting counsel to UWSCC partner agencies on issues from the new IRS Form 990 transition to designing effective charts of accounts.

As business manager for Kennett Symphony of Chester County, Debbie coordinated concert production, advertising, ticket sales, and musician contracts to raise funds. She built relationships with sponsors and individual donors and initiated a marketing alliance with Longwood Gardens. MacIntyre Associates is pleased to offer Debbie's financial expertise to our clients.
