

EXECUTIVE COACHING AND COUNSEL

To maintain effectiveness, all nonprofit executives/leaders need time to reflect on where your organization is going and how you can lead it there. At MacIntyre Associates, we believe that taking time for Executive Coaching and Counsel offers you the opportunity to do just that. At completion, you will be ready to move forward with renewed focus and fresh perspective to achieve your change in the world.

Our Process

We work with nonprofit executives in confidential sessions over a specified period of time to help you review, assess, and problem-solve. Beginning with an overview, we will work with you to determine 2-3 areas for focus for which we will help you develop approaches and solutions and to define partners for achieving your desired results. Essentially, with our expertise in nonprofit management and fundraising we offer you a personal trainer/coach for your brain at work.

Our Result

We offer you the discipline of focused time to discover key issues and to develop creative solutions to lead your organization to its fullest potential. Upon completion of your time with us, we leave you with a confidential report of your action plan. We offer continuing support following the coaching period as needed.

Call Us

We'd be happy to talk with you about your goals and needs and our approach. We look forward to hearing from you.
