

FAITH-BASED STEWARDSHIP

Congregations of many faiths and sizes face the issue of raising enough money to sustain themselves and maintain their place of worship. MacIntyre Associates have experience in congregational leadership as well as being successful consultants to congregations in this situation.

We work with you to:

- Analyze your congregational size and demographics over 3-5 years
- Examine your stewardship efforts and returns over the same time
- Determine your budget, need and shortfall for the near future
- Look at your programs and order of services
- Review your governing structure especially in terms of partnerships and outreach
- Compare your situation with congregations in similar locations and size
- Brainstorm with your leadership on their dreams for sustainability and growth
- Develop a stewardship plan that challenges you to move beyond the probable to the possible

Congregations of all sizes have the potential to grow. It is not easy and it takes sustained effort. Give us a call; let's talk about where you are and how we might help.
